

Never judge a region by its size.

Why do drug-development companies choose Belgium as their hub?

- Strong legacy: 5% of top 100 drugs are developed in Belgium
- Fast global approval of clinical trials phase I and II
- Unique interaction between business, universities, research centres and hospitals
- Renowned clusters and research institutes
- Stimulating fiscal climate
- Availability of funding
- Strong human capital
- Clear government focus on life science sector
- Centrally located
